Rev. José Algue,
Director Manila Observatory,
Manila, P. I.

My dear Sir:-

In September past my wife and myself made an ascent of Mount Apo in the District of Davao and it is our intention to write something of interest concerning the trip not from a scientific standpoint but from the adventurers side.

Will you please furnish me with some data concerning this volcano? I should like to know something about eruptions if any, the time, result, etc. Thinking you might have some data in your office I take the liberty of addressing you in this matter and perhaps at a later time I can furnish you with some observations made by us on our trip.

Thanking you in advance for any information you may give,

Very respectfully yours,

J. C. Knudson.
