

THE GOVERNMENT OF THE PHILIPPINE ISLANDS
DEPARTMENT OF AGRICULTURE AND NATURAL RESOURCES
WEATHER BUREAU

STATION AT

Marikina

August 28, 1927.

The Director of the
Weather Bureau.

Manila

SIR:-

In reply to your communication dated July 30, of the present year. I Respectfully inform you that I myself, the old residents of this town, and the Padre who is in charge of the church, never seen nor heard an accident that caused by lightning excepted the coconut trees. When the coconut tree struck by lightning, sometimes the trunk is broken and sometimes the leaves become yellow and turn to die. And also the lightning occurs most frequently in the dry season.

And also in the Office of the Municipal President and the chief of Police do not have records for an accident that caused by lightnings. Therefore I regret that this office could not furnish an information for the question which was stated in your
