

Rosales, Pangasinan
February 2, 1941

THE DIRECTOR,
WEATHER BUREAU,
MANILA, PHILS.

Sir:-

It takes me pleasures to inform you that last night, February 1st, 1941, a Comet was sighted here in the south western skies and set at about eight oclock p.m.

Was that the Cunningham's Comet? Your early reply will be highly appreciated.

Yours very respectfully,

V. E. Sison
