THE DIRECTOR,
WEATHER BUREAU, Manila.

Dear Sir:

Enclosed herewith the details of our observations
made in this place.

Having no available instruments we just colored the
round peices of paper and paste on separate sheet so as to
give you the idea.

When the sun and moon had first tuch side by side it
was 2:07 and 20 second P. M., when the last ray of the sun had
disappeared it was 3:29 P. M. and when the first ray of the sun
or the first light burst out it was 3:29 and 42 second having
only 42 second duration of eclipse in this place. When the
sun and the moon had separated it was 4:41 and 6 sec. P. M.

YOURS SINCERELY,

C. F. Villavicencio
C. F. VILLAVICENCIO
(Observer)
