Aug 18 1921

Dear Sir

Thank you for the copies of your report on
the conditions in the Philippines for the eclipse of May 9, 1921.
These arrived from both sources in time for distribution
at the eclipse meeting of the commission 12 (Solar Eclipse)
of the Union. I understand that there is some likelihood
of a German expedition from Hamburg under Dr. Baade
and possibly also of an American expedition coming to
the Philippines.

Yours sincerely

F. J. M. Stratton
