La. S. G. Vergara  
Dumanjug, Cebu

Sir:

I address this letter to you at Dumanjug, because in your report signed at Patmungan, Antique, you state that your official residence is Dumanjug.

Of the report submitted by you and your associates, I have to say that is very valuable: 1) on account of its observations and remarks; 2) on account of its drawings and some of its photographs, 3) on account of the amount of labor and fatigue involved in climbing to the top of Mt. Patmungan, Antique. Of all the observations thus far received from Antique, I must say that your report is the best.

I hope that you and your friends will keep a vivid memory of your observations and of the solar corona you had the privilege to see under the most favorable circumstances.

Thanking you and your associates again for your observations,  
I am,

Sincerely yours,

MIGUEL SELGA  
Director, Weather Bureau.
