

Convento .AREVALO. ILOILO. May the 14/29.

Very Reverend dear Father Selga,

I have great pleasure in enclosing  
the results of observations made by some of the pupils. I am afraid  
they will not contribute much to science but if not that by the way  
they have put it, they will give you a good laugh. Once more, dear  
Father, <sup>for</sup> showing me and explaining <sup>about</sup> the instruments last week.  
With every best wish,

I am, dear Father yours very sincerely in Xt,

S. Cruz.
