San Miguel-Heriberto

6 Febr. '30

My dear Father Selga

cleaning up my room  
and looking through a bag of  
papers etc. I found my former  
observations of 9 May 1929 Sun-  
eclipse.

only cloudy in the beginning. the rest of the time, clear-sky.

The people enjoyed it. but the phenome-  
non was not interesting enough to  
stop the cockpit, which was running  
due to the torn fetsa. I may  
with best wishes

It is its signature.
