Rev. H. Miguel Selga
Weather Bureau
Manila.

My dear Director :-

As I know your Excellency the Director of the Observatory of the Weather Bureau of the Philippines, will you be kind please tell me a detail or what significance might observe from the new shining Comet Mc-Intosh, which shone from Jan. 31 to this date. And also the differences of the Comet Cunningham which you've already announced.

Very Truly Yours,
Silvestre C. Rodriguez
