

Guimbal, Iloilo, P.I.

May 11, 1909

Rev. F. Miguel Selga  
Director Bureau of Weather  
Manila, P.I.

Dear father,

Following all the instructions you instructed us in Miagao for that past eclipse, I found it satisfactory.

I covered my eyes five minutes before the eclipse and opened it when it began to be total. By so doing, I usefully saw with the aid of the smoked-glass the sun and its rays from which I made the enclosed sketches during and after the eclipse.

Perhaps my drawings will give no satisfaction on your first sight, but father, what I have sketched is what I fully saw.

Yours sincerely,  
Diosdado Garingalao
