

PHILOSOPHICAL ASPECTS OF MODERN PHYSICS.VI.THE EVIDENCE FOR SUBATOMIC PARTICLES.I N D E X .

<u>Section</u>	<u>Page.</u>
87. Introduction.....	187
A) <u>THE ELECTRON</u>	
88. Electrolytic evidence .....	187
89. The Evaluation of $e/m$ .....	188
90. Accurate Determination of $e$ , Unit Electric Charge .	190
91a) The occurrence of Electrons .....	191
91b) The Size of the Electron .....	192
92. The Ultimate Nature of the Electron .....	193
93. Methods for Detecting Individual Subatomic Particles .....	193
94. Summary of Evidence in favor of the Electron .....	195
B) <u>THE PROTON</u>	
95. Evidence from Electrolysis and Discharge Tubes ....	195
96. Evidence from Disintegration Experiments .....	196
C) <u>THE DEUTERON</u> (Nucleus of Deuterium or Heavy Hydrogen)	
97. The Deuteron, Its Discovery and Nature .....	197
D) <u>THE NEUTRON</u>	
98. The discovery of the Neutron .....	199
99. Some Neutron Characteristics and Uses in Transmutations .....	200
100. The ultimate Nature of the Neutron .....	200
E) <u>THE POSITRON</u>	
101. The discovery of the Positron .....	201
102. Sources of Positrons, Suggested Transmutations and Annihilations .....	202
103. The Ultimate Nature of the Positron .....	203
104. General Concluding Remarks .....	204
REFERENCES .....	205
