

MANILA OBSERVATORY
INAUGURATION AUGUST 31

Cardinal Santos to Bless Geophysical
Research Center at Loyola Heights

The inauguration and blessing of the new buildings of the Manila Observatory at Loyola Heights will take place on Saturday, August 31 at 5:00 p.m. Cardinal Rufino J. Santos will preside at the ceremonies and bless the completed facilities.

Mesgr. Jose Jovellanos, Vicar General of the Archdiocese, will give the Invocation. Short addresses will follow given by Very Rev. Francis X. Clark, Jesuit Provincial, Rev. Francisco Araneta, President of the Ateneo de Manila University and by Rev. James J. Hennessey, Director of the Manila Observatory

Rev. Richard Miller, director of the Solar Program, and Rev. Bernard Doucette, head of the Seismic Investigation, will attend the Cardinal. Fr. Francis Glover of the Radio Physics Department will act as Master of Ceremonies.

Friends of the Observatory in scientific, educational and government circles are invited to attend the ceremonies and inspect the present results of Jesuit planning and accomplishment in the field of modern geophysical research. After an absence of about twenty years from the Manila scene the Observatory now returns in its old role of a private scientific research organization in full operation.

Ermita residents will recall the Padre Faura Observatory which was destroyed during the 1945 Liberation days. The name of its Director,
