HARVARD UNIVERSITY
CAMBRIDGE 38, MASS.

February 2, 1929

Father Miguel Selga,
Manila Observatory,
Manila, Philippine Islands.

Dear Father Selga:

I thank you for your enticing invitation to come to the Philippines for the eclipse. It is only after considerable deliberation I have finally decided to go to the Malay Peninsula in order to take advantage of the extra time of totality. However, I shall be in Manila two days as before in 1925, and am due to arrive there Tuesday, April 23. I shall hope again to visit you at the Observatory unless you are already off at an eclipse camp.

If there would be opportunity for a lecture at your University either on sun spots and radio in the weather or on eclipses the world around, I will plan to have my lantern slides available on arrival. You can let me know regarding this.

My address will be Pomona College, Claremont, California, where I shall be from about March 2 to about March 18. After that, in care of the Dollar Steamship Line, S.S. President Wilson, sailing from San Francisco March 22.

Very sincerely yours,

Harvard S. Eaton
