

Sibonga, February 3, 1941

Hon. Father Miguel Silga  
Director, Weather Bureau & Observatory  
Manila, Philippines

Sir:

Please give us some information or facts regarding the Cunningham comet which information will be helpfully used in our instruction in our Social Science classes of this municipality. Much can be said and taught to our pupils if the following request for answers are kindly attended to:

1. Did the Cunningham comet really appeared? If so, when and where?
2. If it continues to appear, for how long will it appear? Will it be visible in all parts of the Philippines?

Awaiting your kind information, I'm

Very respectfully,

  
Ramon Saeas  
Municipal Teacher
