

THE GOVERNMENT OF THE PHILIPPINE ISLANDS
DEPARTMENT OF AGRICULTURE AND NATURAL RESOURCES
WEATHER BUREAU

STATION AT — Pontevadra, Occ. Negros —

ECLIPS OBSERVATION, MAY 9th.

→ Sun

At 2:30 P.M. then hidden by the clouds making it hard for me to trace the advancing shadow of the moon on the sun surface.

→ Moon-Shadow.

→ Sun-

At 3:00 P.M. as it appears from behind the clouds thus I have observed that by the light of the day it is beginning to dusk. At 3:20 P.M. it was as dark as 7:00 P.M. Autos open their light as it travels on their way. Some houses lighted their lamps believing it to be twilight. As it is Carnival day in this town thousand or people watch with curiosity and wonder the light of the day began to fade till it darkened to almost 7:00 P.M. Light began to gleam again at 3:35 P.M. People clapped their hands with joy to the satisfaction of the weather Bureau's prediction.

→ Moon
Shadow.
