

Dumaguete, Negros Oriental

Jan. 5, 1941

The Director, Weather Bureau  
Manila, P.I.

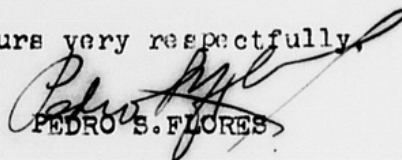

Dear Sir:

I have the honor to request information regarding  
the Cunningham comet.

1. When will this comet be visible to the naked eye?
2. In what part of the sky is it visible?
3. About what time of the night?
4. About what date will it be in its full brilliancy?
5. How many years when this comet will again be  
visible to the earth?
6. How does this comet compare with the Halley's  
comet of 1910?

Any other information about the Cunningham comet will be  
greatly appreciated.

Yours very respectfully,

  
PEDRO S. FLORES
