

Lukban, Tayabas.
May 10, 1929.

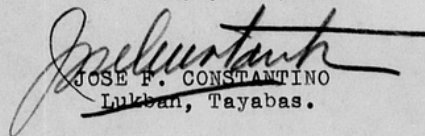

The Weather Bureau,
Manila.

Dear Sir:

This is to inform you that the eclipse of the sun was observed yesterday in this locality beginning at 2:10 p.m. when the edge of the moon touched the rim of the sun moving gradually a little to the center at 2:35 p.m. center 2:55 p.m. while the partial eclipsed surface at 3:40 p.m. the last contact phase was at 4:30 p.m.

Hoping that this information might be of some help to the bureau, I beg to remain

Very truly yours,

JOSE F. CONSTANTINO
Lukban, Tayabas.
