

THE GOVERNMENT OF THE PHILIPPINE ISLANDS
DEPARTMENT OF AGRICULTURE AND NATURAL RESOURCES

WEATHER BUREAU

STATION AT

Infanta Sagrada, P.I.

August 8, 1927

The Director of the Weather Bureau
Manila, P.I.

Dear Sir: Father:

In answer to your communication of
July 30, 1927, I have the honor to give the following
answers to the questions asked, about the statistics
of this locality.

1. Lightnings that occurred in the vicinity of Infanta
had not struck building for ever one time & seldom
2. Since Spanish time only two persons killed by lightning
3. Coconut tree is the most commonly struck by lightning.
4. Carabao and pig are the animals commonly
struck by lightning.
5. Lightning occurred most frequently during rainy season.
6. There was no case on record of fires having been
started by lightning, either in towns or in the field.

These answers were given mostly by the old
residence of the town.

Very respectfully yours,
Juan J. Entorosa
Superior.
